## LOCAL BREVITIES.

Hallowe'en.

Was there ever a fall so fair?

Thanksgiving just four weeks away.

The hunting season begins to-morrow.

And the leaves are scattered on the ground.

Soon be time to think about Thanksgiving turkey.

Isn't Ironton going to have a football game this season?

The well drillers are still at work on the well at the flouring mill.

Adolph's 333, an excellent five cent cigar, for sale by all dealers.

The troops at the rifle range left Friday for Jefferson Barracks.

If we had a system of waterworks in Ironton the dust nuisance would be abated forever.

Our *Dumb Animals* is a very meritorious publication that should be in every school library in the land.

Again we pause to suggest that a flowing well on Main street would be of inestimable benefit to the town.

The teachers in the Ironton public school are endeavoring to secure funds to make additions to the school library.

The Greater Bonanza has two very attractive show windows this fall—arranged and decorated by the Captain.

The new Presbyterian church is nearing completion. It presents quite an attractive and handsome appearance.

Wm. Trauernicht has begun work on his \$10,000 hotel at Bismarck. He expects to have it completed by the first of the year.

MARRIED—At Ironton, Mo., Monday Oct. 28, 1901, by W. G. Fairchild, J. P., James Coleman of Arcadia, Mo., and Saline Tullock of Ironton, Mo.

First-class printing—as good as can be done anywhere—at the REGISTER job office. Don't forget us when you want anything in the printing line.

George Johnson last week received a carload of ice from St. Louis. It isn't often that it is necessary to bring in ice as late as the last week in October.

Rev. W. A. Humphreys and Rev. W. J. Valvick of Elvins are conducting a protracted meeting at Fort Hill. The attendance is large and much interest is manifested.

The work of fencing the rifle range seems to be a long and tedious job. It is thought some substantial buildings will be put up on the property in the next year or so.

Geo. Tinch and family left for Arcadia this morning where they will make their future home. They will occupy Augustus Winkler's property in that city.—*Poplar Bluff Citizen*.

Our old friend, John Seillinger of Marble Creek, brought us some very fine apples Tuesday. They were certainly most magnificent specimens of the fruit and as fine as can be grown anywhere.

Col. G. W. Waters, Institute Organizer of the State Board of Agriculture, was in town to-day arranging to conduct a Farmer's Institute here the latter part of November. Date and particulars later.

Charles Newman is now in New England where he has an advertising contract that will probably keep him busy for several months. Charlie is a skillful sign writer and his services are always in demand.

Henry Strickland of Bismarck, a brakeman on the railroad track near Piedmont Tuesday morning. Strickland had been sent out with a flag and went to sleep on the track.

A line from the editor announces his safe arrival in Asheville, North Carolina. He says he had a royal trip and most delightful time on the way. He will tell the readers of the REGISTER about it in an early letter.

Walter Hensley of Farmington was in town this week. Mr. Hensley is very much encouraged at the outlook and says he thinks his chances are good for securing the Democratic nomination for Congress in this district next year.

Giles Henderson of Caledonia was in town Tuesday. Mr. Henderson has been engaged in the livery business at Irondale the past summer but recently sold out. He intends engaging in the well drilling business in the near future.

The following attorneys have been in attendance on circuit court this week: L. F. Dinning, De Soto; Geo. L. Edwards, St. Louis; O. L. Munger, Greenville; L. Thomason, Poplar Bluff; C. L. Keaton and N. A. Moxley, Dexter.

The pearl bunting craze has struck Ironton and quite a number of people in this vicinity have been devoting their Sundays for some time past on the St. Francois river in search of pearls. No valuable finds have been reported up to date.

The Misses O'Neal most delightfully entertained a few of their young friends last Saturday evening. After an hour or two in social enjoyment some delicious refreshments were served, and the occasion in every way proved a complete success.

J. M. Morris of Farmington was in town Tuesday. Mr. Morris tells us that the drought in Farmington is, if possible, more annoying and disastrous than here. He says that nearly every family in Farmington has to haul drinking water.

A claim agent of the railroad was here one day last week, with an attachment to an ordinary bicycle that enabled him to run a wheel on the rails of the railroad track. It is a great invention and the speed that can be attained is remarkable.

Messrs. Clarence N. Jones and Louis Miller propose furnishing the capital to establish an electric light plant in the valley, provided they are assured sufficient patronage to make the venture a paying one. They should receive every encouragement.

There came very near being another head-end collision between a passenger and a freight train at Cadet last Sunday morning. The error was discovered in time to send an engine after the freight train and overtook it. That was all that averted a collision.

BORN—To Mr. and Mrs. Henry W. Adolph, Ironton, Mo., on Friday evening, October 25, 1901, a boy. The mother and child are doing well, while Henry walks about town as if he thought he was the only man in the whole state the father of two baby boys.

Prof. Robert E. Wilkinson writes from Mexico, Mo., that he is most pleasantly situated, and is getting along very nicely with his work. He also writes that the boys from Iron county at the school are making good progress, and in every way satisfied and happy.

MARRIED—At St. Louis, Mo., on Wednesday, October 23d, 1901, Mr. Edward Steffens of Graniteville and Miss Lulu Huber of St. Louis. The REGISTER extends congratulations and wishes for Mr. Steffens and his bride every happiness. May they live long and prosper!

W. C. Evans of Steelville visited relatives in the Valley last week. This was Mr. Evans' first visit to the Valley in sixteen years, and he noted many improvements. Mr. Evans has held the position of Circuit Clerk and Recorder in Crawford county for twenty-six years.

Sunday's *St. Louis Republic* devoted about half a page to our good friend Barney Frauenthal telling of his trials and tribulations as Manager of the Bureau of Information in the Union Station. The article was well conceived and written and was read with considerable interest by Barney's many friends here.

Col. J. N. Horn, ex-county collector of St. Francois county, with Mr. Vance, both members of the firm of Williams & Co., owners of a number of good race horses, and Isom O'Bannon, trainer all old-time friends of the writer's boyhood days, took up quarters at the Caruthersville fair and captured several nice purses.—*Caruthersville Democrat*.

Willie Keenan, a thirteen-year-old boy who lived with his parents at Pilot Knob, and a neighbor boy went out hunting Sunday morning. In some way or other a ball got fastened in the gun and in attempting to get it out the Keenan boy was shot. The ball went through his body inflicting a mortal wound. The unfortunate lad died Sunday night about twelve o'clock.

Nicholas Algier's team got frightened in the lot at Gay & Kindell's store last Friday afternoon and went dashing down Main street. They ran into Whitworth's furniture store, one of the horses actually getting in the door. Some time in the front of the store was broken and the wagon was scattered along Main street, but the horses escaped injury. Mr. Algier was slightly hurt trying to stop the run-aways.

Circuit court has been dull and uninteresting. Several unimportant cases were disposed of Monday, Tuesday and Wednesday. The only jury case thus far has been that of State vs. Jas. Loyd, charged with robbery. The trial took place Wednesday afternoon. Court will likely be in session until Saturday. The jury in the Loyd case returned a verdict of guilty and fixed his punishment at six years in the penitentiary.

A seven-story commercial building is soon to be erected by Mr. Adolph Lopez on the east side of Eleventh street, just north of Washington avenue. It will be on the slow-combustion order, having the stair-ways and elevator in fire proof shafts, and the rear of the building will be metal frames and casings, with wire glass. The cost will be about \$30,000, and it will cover an area of 36x66 feet. It will be built of red brick, with granite and terra cotta trimmings.—*Globe Democrat*.

For some unknown reason and wholly inexplicable to those acquainted with the circumstances the Post Office Department at Washington has changed the base of supply for mail for the west end of Iron county from Ironton to Arcadia. The change can in no way benefit the service and delays all mail for Ironton from the west end of the county from twelve to twenty-four hours. And there are probably twenty letters from the west end for Ironton where there is one for Arcadia. Why the change was made we should like to know.

Here are a couple sections of the game law enacted by the last legislature: "It is declared unlawful for any person to sell or offer to sell, buy or offer to buy any quail, pinnated grouse, prairie chicken, wild deer or wild turkey in this state for a period of five years from the passage of the act."

"It shall be unlawful for any person to sell or attempt to sell for the purpose of shipping outside of the counties where killed, or to carry, transport or ship, or attempt to carry, transport or ship, from the county where killed to any other county or city in this state, or any point outside of this state any quail, pinnated grouse, prairie chicken, wild deer or wild turkey."

A young man from this county went to this city recently to attend the Fair and see the sights. After having a room assigned to him at the hotel where he had registered inquired at what hour meals were served. "Breakfast from 7 to 11, luncheon from 11 to 3, dinner from 3 to 8, supper from 8 to 11," replied the clerk. "Good gracious!" ejaculated our friend, with bulging eyes, when am I going to get to see the town?—*Poloss Journal*.

Rev. A. M. Robinson, P. C. Bellevue Circuit, writes the REGISTER from Irondale: "Please say through the columns of your paper that I think that I will be able to resume my work and will fill my appointment at Bellevue the first Sunday in November. The time of our affliction covers a period of twenty weeks. I have been sick ten weeks; Mrs. Robinson four, and my little girl sick weeks. I hope my people of Bellevue circuit will bear patiently with me and remember me at the throne of grace when they pray."

The B. & A. Contest at the Academy of Music, Ironton, Mo., November 21, 1901, given under the auspices of the Willing Workers of the Presbyterian Church, for the best loaf of home made bread made of Ironton Manufacturing Company's flour, (any grade): 1st prize, \$5 in gold; 2d prize, \$3 in cash; 3d prize, \$2 in cash. To compete, when buying the flour ask your merchant for a ticket entitling you to enter free. Also, 1st and 2d prize offered for the prettiest fancy apron and the best designed cook apron. Entrance fee for fancy apron, 10 cts. The cook apron to be donated and sold.

A telegram was received here last Friday evening announcing the death that day, of Dr. E. R. Strong at Dulce, New Mexico. Dr. Strong was for many years a resident of Ironton, but left here about eighteen months ago for Flat River. He spent about six months there, and then secured an appointment from Secretary of the Interior Hitchcock as surgeon for the Indians in the reservation at Dulce, New Mexico. The Dr. had been in poor health for some time past, and the news of his death was not a surprise to those who knew of his condition. Dr. Strong came to Pilot Knob from St. Louis in 1886. He spent three years in the practice there and then removed to Ironton, where he remained, with one or two slight interruptions, until the week of 1900. He had many friends here who hear of his death with sorrow. Peace to his ashes!

The *Republican-Headlight* has received a communication from an excellent citizen of the neighborhood where the recent murder of Thos. Hall occurred disputing the statement James Asher, who was killed by Hall, made any attempt to draw a weapon and was in fact unarmed at the time he was shot. The writer also says that all of the troubles between the Halls and Ashers arose from a law suit resulting from the tenancy of James Asher on Mr. Hall's land several years ago. The statement is also made that Asher was not participating in the removal of obstructions from the road on Hall's premises at the time he was killed. The *Republican-Headlight* has no interest in the controversy, and the history of the affair as given a couple of weeks ago was obtained from disinterested persons who claimed to be familiar with the facts. There are probably two sides to the story, with all concerned more or less at fault.—*Salem Republican-Headlight*.

An exchange warbles thus: "The melancholy days have come, the saddest of the year. The small boy swims the swimming hole, the farmer stuffs the steer. The urchin trudges off to school, the puellets begin to lay, the preacher gets a move on him, the coal men have their day. The trees put on their sombre hue, the grasshopper ascends on high, the little ant the cellar fills, the toper calls for 'rye.' The lonely church cypress in the gloom, for now his time has come; the girls have terrible appetites, the boys must spend their 'mon,' and the meat barrel is empty, and the butcher's short on liver; and the thought of winter makes your spinal column quiver. And Johnny gets his little gun and sallies through mud and stubble, and shoots the agricultural colt and has no end of trouble. The days are full of sunshine and the nights are full of frost, and the house is full of stove pipes and half the joint are lost. O, spring time has its drawbacks but it doesn't have them all, but the worst part of the year is just before the fall!"

The famous legal battle that has been waging between the Southern Missouri and the Mississippi River and Bonne Terre railroads since last May was settled yesterday afternoon when the postponed appeal was heard. The character of crossing gave its decision in favor of a grade crossing both at the Crawley switch and the main line. The amount of damage fixed was \$2500, of which \$500 was on the Crawley switch and \$2000 on the main crossing. The points of the case have been gone over in these columns until our readers are familiar therewith. Our local attorneys, Messrs. Carter, Huff & Sleeth, for the M. & B. T. and Messrs. Smith & Anthony, have made strong and persistent fights, and having been on the scene of action, have at all times carried the brunt. The Southern Missouri will, we are informed, deposit with the Circuit Clerk damages assessed at once upon their road through. Of course the Bonne Terre company may appeal, but owing to the slow process of our courts, the road will be built long before the appeal is settled. The people have watched this case with much interest, and a great majority of them are rejoicing at the success of the Southern Missouri.—*St. Francois Herald*.

The following from Saturday's *Republic* is in reference to a young lady well known in the Valley: "Miss Virginia Thomson, youngest daughter of Mr. and Mrs. William H. Thomson, suffers somewhat from the elder sister handicap, since she has five unmarried sisters in society, all older than herself. However, with the coaching which they are qualified to give, her good times and her general social success may be but increased, instead of hampered. Miss Thomson, it is almost unnecessary to say, finished her school days at Mary Institute. Mr. and Mrs. Thomson have been patrons of the school

since their first daughter, now Mrs. C. Cummings Collins, was old enough to learn her letters. Two Junes ago, Mr. Thomson sat down in the front parquet at the Odeon, one hot June morning, and saw Miss Virginia walk dignifiedly forth to receive her diploma, with the other members of the class of 1900. She is his seventh daughter, and all have been graduated from the same school. Miss Thomson began to take a share in social doings last winter, previous to a lengthy New York visit. She is her next older sister's inseparable chum, Miss Susan Thomson, who came out a year ago, and the two will share in the entertainment of the debutante this winter. Miss Thomson is a brunette, with a strong likeness to her mother. She has always been studious and very fond of reading, and will spend much of her time this winter, so far as the gay whirl will permit, with her books. A luncheon, given by the debutante this week, brought together a dozen of her class and gave them an opportunity to know each other and to plan for some of their good times."

Miss Grace Sinclair, daughter of Thos. Sinclair, died with consumption last Saturday last Saturday. Her remains were brought to Des Arc for interment.

Mrs. Geo. Ruppel died Sunday night. She was living near Vulcan.

I spent Sunday with my children in Farmington. That place is still on the boom. 25 new houses are being built, and the merchants seem to be overrun with business. Morris Bros. sold \$439.70 worth of goods Saturday, cash. The Grand-Leader is erecting a fine brick building that will be a credit to the town. I attended the Christian Church Sunday and heard a fine sermon from Mark Collis, of Lexington, Ky. I also had the pleasure of meeting with Walter Hensley, Prosecuting Attorney of St. Francois county. He is a candidate for Congress against Robb and will make it hot for him in race. Robb has a clear record and will no doubt make a good race, but he has never done much for the Democrats, and has been in office 18 years. That ought to satisfy him.

The box supper and entertainment given for the benefit of the school last Friday night was well attended and proved quite a success. A nice program was rendered. Following are among the best recitations etc.: "The Maniac," Miss Flora Lunna; "Fair Bingen on the Rhine," Miss Anna Morris; "The Cigarette Fiend," John Nation; "To the White Man," Willie Keathley; and a dialogue by Sam Fitz and Art Wallis. 4 good houses to rent in Ironton and Arcadia.

Mrs. H. O'Brien.

Mr. Roosevelt's Thanksgiving Turkey.

Following the precedent of almost thirty Thanksgiving Days, Horace Vose, of Westerly, Rhode Island, will send the prize turkey of all his flocks to grace the new President's dinner-table on November 28. "When Mr. Vose began the custom of sending a turkey to the President," writes a contributor to the November *Ladies' Home Journal*, "he had no motive other than the desire to send a Thanksgiving bird to the man who writes the Thanksgiving proclamation. The pioneer turkey went to President Grant in 1873. It weighed thirty-six pounds, and elicited the first of the courteous notes that have been coming ever since in acknowledgment from the Executive Mansion. Mr. Vose has been dubbed 'The Turkey King'. All through the summer and fall he makes occasional visits to the farms in the vicinity, keeping a watchful eye on the many flocks, and eagerly scanning the strutting companies for the coming champion, the distinguished member of all the feathered tribes that is to rise eventually to the dignity of a place on the White House dinner-table."

A Fiendish Attack.  
An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried *Electric Bitters* which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at Arcadia Valley Drug Co.
